

NHS GRAMPIAN

Performance Report

1. Actions Recommended

The NHS Grampian Board is asked to review and scrutinise the Performance Report.

2. Strategic Context

The overall approach that we adopt is that intelligence and data are integral to guiding our response to the COVID pandemic and the delivery of quality and effective services, governance and accountability.

As reported at the April 2021 Board meeting, NHS Grampian exited from Operation Snowdrop to a transition period on Thursday 1st April 2021. The process for exiting Operation Snowdrop and the transitional business model were formally signed off by Gold Command in March 2021. Whilst moving to the transitional model, all the key elements of the Board's COVID response will remain in place for the foreseeable future.

The focus of the Board's is now continuing to respond to COVID and to recovery of our staff and remobilisation of services. The separate Board report in relation to the Remobilisation Plan sets out the new priorities for the immediate future.

3. Key matters relevant to recommendation

The Performance Report summarises the position in relation to the overall COVID position and the remobilisation of services:

- COVID position
- Vaccinations
- Surge and Flow
- Planned Care
- Mental Health

An update on the progress with the Staff Health and Wellbeing programme will be provided as part of the presentation of the data and information at the Board meeting.

4. Responsible Executive Director and contact for further information

If you require any further information in advance of the Board meeting please contact:

Responsible Executive Director

Alan Gray
