Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
Acarizax 12 SQ-HDM oral lyophilisates (Dermatophagoides pteronyssinus and Dermatophagoides farinae)	<a href="#">2613</a>	<p>1) Adults (18-65 years) diagnosed by clinical history and a positive test of house dust mite sensitisation (skin prick test and/or specific IgE) with at least one of the following conditions:</p> <ul style="list-style-type: none"> <li>- persistent moderate to severe house dust mite allergic rhinitis despite use of symptom-relieving medication</li> <li>- house dust mite allergic asthma not well controlled by inhaled corticosteroids and associated with mild to severe house dust mite allergic rhinitis. Patients' asthma status should be carefully evaluated before the initiation of treatment</li> </ul> <p>2) Adolescents (12-17 years) diagnosed by clinical history and a positive test of house dust mite sensitisation (skin prick test and/or specific IgE) with persistent moderate to severe house dust mite allergic rhinitis despite use of symptom-relieving medication.</p>	<p>Not routinely available as not recommended for use in NHS Scotland, SMC 2613</p> <p><a href="https://www.scottishmedicines.org.uk/media/7752/dermatophagoides-acarizax-non-sub-final-july-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7752/dermatophagoides-acarizax-non-sub-final-july-2023-for-website.pdf</a></p>	15/08/2023
aflibercept 40mg/mL solution for injection in pre-filled syringe (Eylea®)	<a href="#">2612</a>	<p>In preterm infants for the treatment of retinopathy of prematurity (ROP) with zone I (stage 1+, 2+, 3 or 3+), zone II (stage 2+ or 3+) or AP-ROP (aggressive posterior ROP) disease.</p>	<p>Not routinely available as not recommended for use in NHS Scotland, SMC 2612</p> <p><a href="https://www.scottishmedicines.org.uk/media/7755/aflibercept-eylea-non-sub-final-july-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7755/aflibercept-eylea-non-sub-final-july-2023-for-website.pdf</a></p>	15/08/2023
amivantamab 50mg/mL concentrate for solution for infusion (Rybrevant®)	<a href="#">2638</a>	<p>As monotherapy for treatment of adult patients with locally advanced or metastatic non-small cell lung cancer (NSCLC) with activating epidermal growth factor receptor (EGFR) Exon 20 insertion mutations, whose disease has progressed on or after platinum-based chemotherapy.</p>	<p>Not routinely available as not recommended for use in NHS Scotland, SMC 2638</p> <p><a href="https://www.scottishmedicines.org.uk/media/7987/amivantamab-rybrevant-non-sub-final-nov-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7987/amivantamab-rybrevant-non-sub-final-nov-2023-for-website.pdf</a></p>	19/12/2023

NHS Grampian Formulary Group Decisions for SMC advice published April 2023 to March 2024

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
apalutamide 60mg film-coated tablets (Erleada®)	<a href="#">2579</a>	In adults for the treatment of non-metastatic castration-resistant prostate cancer (nmCRPC) who are at high risk of developing metastatic disease.	Not routinely available as the ADTC is waiting for further advice from local clinical experts	15/08/2023
atogepant 10mg, 60mg tablets (Aquipta®)	<a href="#">2599</a>	For the prophylaxis of migraine in adults who have at least 4 migraine days per month. <b>SMC restriction:</b> for patients with chronic and episodic migraine who have had prior failure on three or more migraine preventive treatments.	Routinely available in line with local guidance Updates decision 17/10/23	21/11/2023
avacopan 10mg hard capsules (Tavneos®)	<a href="#">2578</a>	In combination with a rituximab or cyclophosphamide regimen, for the treatment of adult patients with severe, active granulomatosis with polyangiitis (GPA) or microscopic polyangiitis (MPA).	Not routinely available as the ADTC is waiting for further advice from local clinical experts	21/11/2023
avalglucosidase alfa 100mg powder for concentrate for solution for infusion (Nexviadyme®)	<a href="#">2546</a>	Long-term enzyme replacement therapy for the treatment of patients with Pompe disease (acid $\alpha$ -glucosidase deficiency).	Routinely available in line with national guidance, SMC 2546 <a href="https://www.scottishmedicines.org.uk/media/7700/avalglucosidase-alfa-nexviadyme-abb-final-june-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7700/avalglucosidase-alfa-nexviadyme-abb-final-june-2023-for-website.pdf</a>	15/08/2023
axicabtagene ciloleucel 0.4 – 2 x 10 <sup>8</sup> cells dispersion for infusion (Yescarta®)	<a href="#">2628</a>	For the treatment of adult patients with diffuse large B-cell lymphoma (DLBCL) and high-grade B-cell lymphoma (HGBL) that relapses within 12 months from completion of, or is refractory to, first-line chemoimmunotherapy.	Not routinely available as not recommended for use in NHS Scotland, SMC 2628 <a href="https://www.scottishmedicines.org.uk/media/8169/axicabtagene-ciloleucel-yescarta-final-amended-060324-for-website.pdf">https://www.scottishmedicines.org.uk/media/8169/axicabtagene-ciloleucel-yescarta-final-amended-060324-for-website.pdf</a>	19/03/2024
axicabtagene ciloleucel 0.4 – 2 x 10 <sup>8</sup> cells dispersion for infusion (Yescarta®)	<a href="#">2646</a>	Treatment of adult patients with relapsed or refractory follicular lymphoma (FL) after three or more lines of systemic therapy.	Not routinely available as not recommended for use in NHS Scotland, SMC 2646 <a href="https://www.scottishmedicines.org.uk/media/8028/axicabtagene-ciloleucel-non-sub-final-dec-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/8028/axicabtagene-ciloleucel-non-sub-final-dec-2023-for-website.pdf</a>	16/01/2024

NHS Grampian Formulary Group Decisions for SMC advice published April 2023 to March 2024

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
azacitidine 200mg, 300mg film-coated tablets (Onureg®)	<a href="#">2533</a>	Maintenance therapy in adults with acute myeloid leukaemia who achieved complete remission or complete remission with incomplete blood count recovery following induction therapy with or without consolidation treatment and who are not candidates for, including those who choose not to proceed to, haematopoietic stem cell transplantation.	Routinely available in line with national guidance, SMC 2533 <a href="https://www.scottishmedicines.org.uk/media/7701/azacitidine-onureg-final-june-2023-updated-270623-for-website.pdf">https://www.scottishmedicines.org.uk/media/7701/azacitidine-onureg-final-june-2023-updated-270623-for-website.pdf</a>	15/08/2023
baricitinib 2mg, 4mg film-coated tablets (Olumiant®)	<a href="#">2572</a>	For the treatment of severe alopecia areata in adult patients.	Not routinely available as not recommended for use in NHS Scotland, SMC 2572 <a href="https://www.scottishmedicines.org.uk/media/7756/baricitinib-olumiant-final-july-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7756/baricitinib-olumiant-final-july-2023-for-website.pdf</a>	15/08/2023
belantamab mafodotin 100mg powder for concentrate for solution for infusion (Blenrep®)	<a href="#">2597</a>	As monotherapy for the treatment of multiple myeloma in adult patients, who have received at least four prior therapies and whose disease is refractory to at least one proteasome inhibitor, one immunomodulatory agent, and an anti-CD38 monoclonal antibody, and who have demonstrated disease progression on the last therapy.	Not routinely available as not recommended for use in NHS Scotland, SMC 2597 <a href="https://www.scottishmedicines.org.uk/media/8029/belantamab-blenrep-final-dec-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/8029/belantamab-blenrep-final-dec-2023-for-website.pdf</a>	16/01/2024
belzutifan 40mg film-coated tablets (Welireg®)	<a href="#">2587</a>	Treatment of adult patients with von Hippel-Lindau (VHL) disease who require therapy for VHL associated renal cell carcinoma (RCC), central nervous system (CNS) hemangioblastomas, or pancreatic neuroendocrine tumours (pNET), and for whom localised procedures are unsuitable or undesirable.	Not routinely available as the ADTC is waiting for further advice from local clinical experts	17/10/2023

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
bimekizumab 160mg solution for injection in pre-filled syringe, pre-filled pen (Bimzelx®)	<a href="#">2605</a>	Alone or in combination with methotrexate, for the treatment of active psoriatic arthritis in adults who have had an inadequate response or who have been intolerant to one or more disease-modifying antirheumatic drugs (DMARDs). <b>SMC restriction:</b> Use in patients with active psoriatic arthritis who have not responded adequately to two conventional DMARDs, given either alone or in combination.	Routinely available in line with national guidance, SMC 2605 <a href="https://www.scottishmedicines.org.uk/media/7939/bimekizumab-bimzelx-abb-final-oct-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7939/bimekizumab-bimzelx-abb-final-oct-2023-for-website.pdf</a> Updates decision 21/11/23	20/02/2024
bimekizumab 160mg solution for injection in pre-filled syringe, pre-filled pen (Bimzelx®)	<a href="#">2616</a>	Axial spondyloarthritis: - for the treatment of adults with active non-radiographic axial spondyloarthritis with objective signs of inflammation as indicated by elevated C-reactive protein (CRP) and/or magnetic resonance imaging (MRI) who have responded inadequately or are intolerant to non-steroidal anti-inflammatory drugs (NSAIDs) - for the treatment of adults with active ankylosing spondylitis who have responded inadequately or are intolerant to conventional therapy	Routinely available in line with national guidance, SMC 2616 <a href="https://www.scottishmedicines.org.uk/media/7988/bimekizumab-bimzelx-abb-final-nov-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7988/bimekizumab-bimzelx-abb-final-nov-2023-for-website.pdf</a> Updates decision 19/12/23	20/02/2024
brexucabtagene autoleucel 0.4 – 2 × 10 <sup>8</sup> cells dispersion for infusion (Tecartus®)	<a href="#">2548</a>	Treatment of adults 26 years of age and above with relapsed or refractory B-cell precursor acute lymphoblastic leukaemia (ALL).	Routinely available from a specialist centre in another health board	17/10/2023
cabozantinib 20mg, 40mg, 60mg film-coated tablets (Cabometyx®)	<a href="#">2590</a>	As monotherapy for the treatment of adult patients with locally advanced or metastatic differentiated thyroid carcinoma (DTC), refractory or not eligible to radioactive iodine (RAI) who have progressed during or after prior systemic therapy.	Not routinely available as not recommended for use in NHS Scotland, SMC 2590 <a href="https://www.scottishmedicines.org.uk/media/8107/cabozantinib-cabometyx-final-jan-2024-for-website.pdf">https://www.scottishmedicines.org.uk/media/8107/cabozantinib-cabometyx-final-jan-2024-for-website.pdf</a>	20/02/2024

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
cemiplimab 350mg concentrate for solution for infusion (Libtayo®)	<a href="#">2584</a>	As monotherapy for the treatment of adults with metastatic or locally advanced cutaneous squamous cell carcinoma (CSCC) who are not candidates for curative surgery or curative radiation.	Routinely available in line with national guidance, SMC 2584 <a href="https://www.scottishmedicines.org.uk/media/7989/cemiplimab-libtayo-final-nov-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7989/cemiplimab-libtayo-final-nov-2023-for-website.pdf</a>	19/12/2023
cipaglucosidase alfa 105mg powder for concentrate for solution for infusion (Pombiliti®)	<a href="#">2606</a>	As a long-term enzyme replacement therapy used in combination with the enzyme stabiliser miglustat for the treatment of adults with late-onset Pompe disease (acid $\alpha$ -glucosidase [GAA] deficiency).	Not routinely available as the ADTC is waiting for further advice from local clinical experts	19/12/2023
crizotinib 200mg, 250mg hard capsules (Xalkori®)	<a href="#">2621</a>	As monotherapy for the treatment of paediatric patients (age $\geq 6$ to $< 18$ years) with: - relapsed or refractory systemic anaplastic lymphoma kinase (ALK) positive anaplastic large cell lymphoma (ALCL) - recurrent or refractory anaplastic lymphoma kinase (ALK) positive unresectable inflammatory myofibroblastic tumour (IMT)	Not routinely available as not recommended for use in NHS Scotland, SMC 2621 <a href="https://www.scottishmedicines.org.uk/media/7816/crizotinib-xalkori-non-sub-final-august-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7816/crizotinib-xalkori-non-sub-final-august-2023-for-website.pdf</a>	19/09/2023
dapagliflozin 5mg, 10mg film-coated tablets (Forxiga®)	<a href="#">2577</a>	In adults for the treatment of symptomatic chronic heart failure with left ventricular ejection fraction (LVEF) $> 40\%$ .	Routinely available in line with national guidance, SMC 2577 <a href="https://www.scottishmedicines.org.uk/media/7757/dapagliflozin-forxiga-abb-final-july-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7757/dapagliflozin-forxiga-abb-final-july-2023-for-website.pdf</a>	15/08/2023
daratumumab 20mg/mL concentrate for solution for infusion, 1,800mg solution for injection (Darzalex®)	<a href="#">2536</a>	In combination with lenalidomide and dexamethasone for the treatment of adult patients with newly diagnosed multiple myeloma who are ineligible for autologous stem cell transplant (ASCT).	Routinely available in line with national guidance, SMC 2536 <a href="https://www.scottishmedicines.org.uk/media/7817/daratumumab-darzalex-final-august-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7817/daratumumab-darzalex-final-august-2023-for-website.pdf</a>	19/09/2023
darolutamide 300mg film-coated tablets (Nubeqa®)	<a href="#">2604</a>	Treatment of adults with metastatic hormone-sensitive prostate cancer (mHSPC) in combination with docetaxel.	Routinely available in line with national guidance, SMC 2604 <a href="https://www.scottishmedicines.org.uk/media/7870/darolutamide-nubeqa-resub-final-sept-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7870/darolutamide-nubeqa-resub-final-sept-2023-for-website.pdf</a> Updates decision 17/10/23	19/12/2023

NHS Grampian Formulary Group Decisions for SMC advice published April 2023 to March 2024

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
degarelix 80mg, 120mg injection (Firmagon®)	<a href="#">2625</a>	- for the treatment of high-risk localised and locally advanced hormone dependent prostate cancer in combination with radiotherapy - as neoadjuvant treatment prior to radiotherapy in patients with high-risk localised or locally advanced hormone dependent prostate cancer	Routinely available in line with national guidance, SMC 2625 <a href="https://www.scottishmedicines.org.uk/media/7991/degarelix-firmagon-abb-final-nov-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7991/degarelix-firmagon-abb-final-nov-2023-for-website.pdf</a> Updates decision 19/12/23	20/02/2024
deucravacitinib 6mg film-coated tablets (Sotyktu®)	<a href="#">2581</a>	For the treatment of moderate to severe plaque psoriasis in adults who are candidates for systemic therapy. <b>SMC restriction:</b> patients who have failed to respond to standard systemic therapies (including ciclosporin, methotrexate and phototherapy), are intolerant to, or have a contra-indication to these treatments.	Not routinely available as the ADTC is waiting for further advice from local clinical experts	19/12/2023
difelikefalin 50micrograms/mL solution for injection (Kaprivia®)	<a href="#">2623</a>	Treatment of moderate-to-severe pruritus associated with chronic kidney disease in adult patients on haemodialysis. <b>SMC restriction:</b> for use in patients with an inadequate response to best supportive care for reducing itch.	Not routinely available as the ADTC is waiting for further advice from local clinical experts	20/02/2024
dupilumab 300mg solution for injection in pre-filled syringe, pre-filled pen (Dupixent®)	<a href="#">2598</a>	For the treatment of adults with moderate-to-severe prurigo nodularis (PN) who are candidates for systemic therapy.	Not routinely available as the ADTC is waiting for further advice from local clinical experts	20/02/2024
durvalumab 50mg/mL concentrate for solution for infusion (Imfinzi®)	<a href="#">2582</a>	In combination with gemcitabine and cisplatin for the first-line treatment of adults with locally advanced, unresectable, or metastatic biliary tract cancer.	Routinely available in line with national guidance, SMC 2582 <a href="https://www.scottishmedicines.org.uk/media/7940/durvalumab-imfinzi-final-oct-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7940/durvalumab-imfinzi-final-oct-2023-for-website.pdf</a> Updates decision 21/11/23	19/12/2023

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
efgartigimod alfa 20mg/mL concentrate for solution for infusion (Vyvgart®)	<a href="#">2561</a>	As an add-on to standard therapy for the treatment of adult patients with generalised Myasthenia Gravis (gMG) who are anti-acetylcholine receptor (AChR) antibody positive.	Not routinely available as not recommended for use in NHS Scotland, SMC 2561 <a href="https://www.scottishmedicines.org.uk/media/7931/efgartigimod-alfa-vyvgart-final-oct-2023-amended-251023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7931/efgartigimod-alfa-vyvgart-final-oct-2023-amended-251023-for-website.pdf</a>	21/11/2023
empagliflozin 10mg film-coated tablet (Jardiance®)	<a href="#">2523</a>	In adults for the treatment of symptomatic chronic heart failure with preserved ejection fraction (left ventricular ejection fraction [LVEF] >40%).	Not routinely available as there is a local preference for alternative medicines Updates decision 16/05/23	15/08/2023
fenfluramine 2.2mg/mL oral solution (Fintepla®)	<a href="#">2569</a>	For the treatment of seizures associated with Dravet syndrome as an add-on to other anti-epileptic medicines for patients 2 years of age and older. <b>SMC restriction:</b> as add-on therapy for treating seizures associated with Dravet syndrome where seizures have not been controlled in people aged 2 years and older after trying two or more anti-seizure medicines.	Not routinely available as the ADTC is waiting for further advice from local clinical experts	17/10/2023
ibrutinib 140mg, 280mg, 420mg film-coated tablets (Imbruvica®)	<a href="#">2543</a>	In combination with venetoclax for the treatment of adult patients with previously untreated chronic lymphocytic leukaemia (CLL).	Routinely available in line with national guidance, SMC 2543 <a href="https://www.scottishmedicines.org.uk/media/7878/ibrutinib-imbruvica-final-august-2023-for-website-amended-october-2023.pdf">https://www.scottishmedicines.org.uk/media/7878/ibrutinib-imbruvica-final-august-2023-for-website-amended-october-2023.pdf</a> Updates decision 19/09/23	21/11/2023

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
icosapent ethyl 998mg soft capsules (Vazkepa®)	<a href="#">2602</a>	<p>To reduce the risk of cardiovascular events in adult statin-treated patients at high cardiovascular risk with elevated triglycerides (<math>\geq 1.7</math>mmol/L) and</p> <ul style="list-style-type: none"> <li>- established cardiovascular disease, or</li> <li>- diabetes, and at least one other cardiovascular risk factor.</li> </ul> <p><b>SMC restriction:</b> use as secondary prevention in patients treated with a stable dose of statins, low-density lipoprotein (LDL) cholesterol levels <math>&gt; 1.04</math>mmol/L and <math>\leq 2.60</math>mmol/L, raised fasting triglycerides (<math>\geq 1.7</math>mmol/L) and with established cardiovascular disease defined as a history of any of the following:</p> <ul style="list-style-type: none"> <li>- Acute coronary syndrome (ACS) (such as myocardial infarction (MI) or unstable angina needing hospitalisation)</li> <li>- Coronary or other arterial revascularisation procedures</li> <li>- Coronary heart disease</li> <li>- Ischaemic stroke</li> <li>- Peripheral arterial disease</li> </ul>	Not routinely available as the ADTC is waiting for further advice from local clinical experts	15/08/2023
ivosidenib 250mg film-coated tablet (Tibsovo®)	<a href="#">2615</a>	<p>In combination with azacitidine for the treatment of adult patients with newly diagnosed acute myeloid leukaemia (AML) with an isocitrate dehydrogenase-1 (IDH1) R132 mutation who are not eligible to receive standard induction chemotherapy.</p>	Not routinely available as the ADTC is waiting for further advice from local clinical experts	19/03/2024

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
loncastuximab tesirine 10mg powder for concentrate for solution for infusion (Zynlonta®)	<a href="#">2609</a>	As monotherapy for the treatment of adult patients with relapsed or refractory diffuse large B-cell lymphoma (DLBCL) and high-grade B-cell lymphoma (HGBL), after two or more lines of systemic therapy. <b>SMC restriction:</b> where chimeric antigen receptor (CAR) T-cell therapy is unsuitable, not tolerated or ineffective.	Not routinely available as the ADTC is waiting for further advice from local clinical experts	20/02/2024
lumasiran 94.5mg/0.5 mL solution for injection (Oxlumo®)	<a href="#">2639</a>	Treatment of primary hyperoxaluria type 1 (PH1) in all age groups.	Not routinely available as not recommended for use in NHS Scotland, SMC 2639 <a href="https://www.scottishmedicines.org.uk/media/7993/lumasiran-oxlumo-non-sub-final-nov-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7993/lumasiran-oxlumo-non-sub-final-nov-2023-for-website.pdf</a>	19/12/2023
lutetium ( <sup>177</sup> Lu) vipivotide tetraxetan 1,000MBq/mL solution for injection or infusion (Pluvicto®)	<a href="#">2517</a>	Treatment of adult patients with prostate specific membrane antigen (PSMA)-positive metastatic castration-resistant prostate cancer (mCRPC) who have been treated with androgen receptor (AR) pathway inhibition and taxane-based chemotherapy or who are not medically suitable for taxanes.	Not routinely available as not recommended for use in NHS Scotland, SMC 2517 <a href="https://www.scottishmedicines.org.uk/media/7871/lutetium-177-lu-vipivotide-tetraxetan-pluvicto-final-updated-310823-for-website.pdf">https://www.scottishmedicines.org.uk/media/7871/lutetium-177-lu-vipivotide-tetraxetan-pluvicto-final-updated-310823-for-website.pdf</a>	17/10/2023
maribavir 200mg film-coated tablets (Livtencity®)	<a href="#">2576</a>	Treatment of cytomegalovirus (CMV) infection and/or disease that are refractory (with or without resistance) to one or more prior therapies, including ganciclovir, valganciclovir, cidofovir or foscarnet in adult patients who have undergone a haematopoietic stem cell transplant (HSCT) or solid organ transplant (SOT). Consideration should be given to official guidance on the appropriate use of antiviral agents.	Not routinely available as the ADTC is waiting for further advice from local clinical experts	17/10/2023

Name	Unique identifier	Condition being treated	NHS Grampian decision	Date of decision
mercaptamine 25mg, 75mg gastro-resistant hard capsules (Procysbi®)	<a href="#">2571</a>	Treatment of proven nephropathic cystinosis. Cysteamine reduces cystine accumulation in some cells (e.g. leukocytes, muscle and liver cells) of nephropathic cystinosis patients and, when treatment is started early, it delays the development of renal failure.	Not routinely available as not recommended for use in NHS Scotland, SMC 2571 <a href="https://www.scottishmedicines.org.uk/media/7932/mercaptamine-procysbi-resub-final-oct-2023-amended-031123-for-website.pdf">https://www.scottishmedicines.org.uk/media/7932/mercaptamine-procysbi-resub-final-oct-2023-amended-031123-for-website.pdf</a>	21/11/2023
mosunetuzumab 1mg, 30mg concentrate for solution for infusion (Lunsumio®)	<a href="#">2542</a>	As monotherapy for the treatment of adult patients with relapsed or refractory follicular lymphoma (FL) who have received at least two prior systemic therapies.	Not routinely available as not recommended for use in NHS Scotland, SMC 2542 <a href="https://www.scottishmedicines.org.uk/media/7819/mosunetuzumab-lunsumio-final-august-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7819/mosunetuzumab-lunsumio-final-august-2023-for-website.pdf</a>	19/09/2023
nirmatrelvir 150mg plus ritonavir 100mg film coated tablets (Paxlovid®)	<a href="#">2557</a>	Treatment of COVID-19 in adults who do not require supplemental oxygen and who are at increased risk for progression to severe COVID-19. <b>SMC restriction:</b> patients with any of the following: - increased risk for progression to severe COVID-19, as defined in section 5 of NICE final guidance - age 70 years and over - a body mass index (BMI) of 35 kg/m <sup>2</sup> or more - diabetes - heart failure	Not routinely available as the ADTC is waiting for further advice from local clinical experts	19/03/2024
nivolumab 10mg/mL concentrate for solution for infusion (Opdivo®)	<a href="#">2519</a>	In combination with fluoropyrimidine- and platinum-based combination chemotherapy for the first-line treatment of adult patients with unresectable advanced, recurrent or metastatic oesophageal squamous cell carcinoma (OSCC) with tumour cell programmed death ligand 1 (PD-L1) expression ≥1%.	Routinely available in line with national guidance, SMC 2519 <a href="https://www.scottishmedicines.org.uk/media/7612/nivolumab-opdivo-final-may-2023-for-website.pdf">https://www.scottishmedicines.org.uk/media/7612/nivolumab-opdivo-final-may-2023-for-website.pdf</a> Updates decision 20/06/23	17/10/2023
